DIRTcar Sportsman-Modified Championship Series Event Procedural Rules

- All teams draw for qualifying group. Teams will run timed hot laps and heat races within the group assigned.
- The number of groups will be determined by the series officials based on the total number cars competing in the event.
- Timed Hot laps will be three (3) laps.
- A driver missing a timed hot lap group will receive no time and start tail in their assigned heat.
- Heat races will be eight (8) laps.
- Consolations will be 10-laps.
- Saturday Last Chance Showdowns will be twelve (12) laps.
- Heat winners will redraw for starting spot in the \$500-to-win Precision Hydraulic & Oil Pole Dash to be held Saturday.
- Thirty (30) cars will start the feature event.
- Four (4) provisional starting positions will be available for the first four non-qualifiers out of the current top-18 in overall series points.
- All starts are side-by-side until the green flag is displayed. The front row must maintain the pace established by the pace car and will be signaled to do so, on the one-way radio. If, in the judgment of the DIRTcar Sportsman Championship Series Officials the pace is not maintained, a penalty and/or penalties may be issued.
- All restarts in all races (heats, consolations and feature) will be double file with lead lap cars to the front and take place near the exit of turn four as specified in the driver's meeting. Single file restarts may be instituted at any time during any race at the discretion of the Series Director.
- The leader is the control car on all starts and/or restarts and has lane choice throughout the event.
- Caution laps will not count.
- If at any time the red flag is displayed and competitors are signaled to stop due to a red flag condition, cars must come to a complete stop. After the field is stopped and is under control of the pace car, DIRTcar Sportsman Championship Series Officials, will instruct any vehicle not involved in the red flag incident that needs to pit for service, to pull up to the pace car prior to being released to the pit area on the one-way radio. Any car that pits during the red flag period will be required to restart at the tail of the field in their respective position. If any car heads to the pits without following the instructing over the one-way radio, a 1-lap penalty may be issued.
- All races will end with a green-white-checker finish.
- One-way radios are mandatory.
- When the caution is displayed, drivers must get into single-file order and will be signaled over the one-way radio when it is time to go double-file and/or restart single file.
- It is mandatory to have the following decals on the car (DIRTcar, DIRTcar Sportsman, VP Racing Fuels and Hoosier) and the driver must have a VP patch on his uniform. These items will be available at the series trailer.
- Immediately following the conclusion of the event, the first place car needs to go to the scale first, followed by the runner-up, then the third through fifth place finishers. Upon passing the scales, the top-three should report directly to the stretch for victory lane ceremonies. front
